Introduction

As Beneficial Bank completes its system conversion to WSFS Bank, you will need to modify your Quicken settings to ensure the smooth transition of your data. Before continuing with these instructions, please have your WSFS Online Banking user ID and password ready.

It is important that you perform the following instructions exactly as described and in the order presented. If you do not, your service may stop functioning properly. This conversion should take 15-30 minutes.

Task 3: Reactivate Accounts at **WSFS Bank** on or after **August 26, 2019**

1. Download your Quicken Web Connect file from your WSFS Online Banking account at wsfsbank.com.

IMPORTANT: Take note of the date you last had a successful connection in your Quicken account. If you have overlapping dates in the Web Connect download, you may end up with duplicate transactions.

2. Click **File > File Import > Web Connect File**. Locate and select the Web Connect file to import.
3. **Import Downloaded Transactions** window opens: Select **Link to an existing account** and choose the matching account in the drop-down menu. Associate the imported transactions to the correct account listed in Quicken.

IMPORTANT: Do **NOT** select **Create a new account** unless you intend to add a new account to Quicken. If you are presented with accounts you do not want to track in this data file, select **Ignore – Don't Download into Quicken** or click the **Cancel** button.

4. Repeat steps for each account you wish to reactivate in Quicken.

Thank you for making these important changes!
